

ACCESS Linnaeus Centre

EU-US08 Workshop

16 June, 2008

Speakers and Titles

Wireless Sensing and Control for Embedded Networks

Open problems session (10 min slots):

Andreas Willing, TU Berlin, "Some open issues in protocol design or wireless networked embedded systems"

Carlos Canudas de Wit, Grenoble, "Source coding in feedback: less bits, minimum energy"

Marco Taisch, Politecnico di Milano, "SOCRADES"

DK Arvind, University of Edinburgh, "Towards networked embedded systems for remote telepresence - Research challenges and early results"

Jerker Delsing, Luleå Technical University, "The issue of application time in software"

Stamatis Karnouskos, SAP, "Wireless Sensor Networks in Enterprise Environments"
